YouTrack task SSE-12 - assessment materials and submission criteria - full view

Captured 23 October 2026

YouTrack task SSE-12 - assessment materials and submission criteria - readable detail

Assemble the assessment materials and submit one form on behalf of the team.

Deliverables:

- One PDF report covering all 11 required sections.
- A separate PDF containing readable screenshots of the YouTrack board and tasks.
- A completed submission form and saved submission confirmation.

Acceptance criteria:

- The report includes the proposal, relevance evidence, literature review, system comparison, technology comparison, requirements, architecture, prototype, evaluation plan, project management and risks, and supervisor feedback.
- Both PDFs are checked for readability and completeness.
- The README includes current documentation and YouTrack links.
- The repository submission is tagged pre-defense-1, with completed work, limitations, and outstanding tasks documented.
- The supervisor and committee have access to all linked materials before submission.
- The form includes the topic, supervisor details, both members' full names, accounts, individual contributions, and project links.
- The team clarifies whether GitHub accounts can be entered where the announcement requests GitLab accounts.
- Tamir checks the final package.
- One team representative submits the form and saves confirmation.

Assignee: Nursultan Makhmutov.
Reviewer: Tamir Burlibaev.
Internal target: 24 October 2026, 16:00, Astana time (UTC+5).
Official deadline: 24 October 2026, 18:00. Confirm the time zone with the university.

Dependencies: ~~SSE-1~~ through ~~SSE-11~~.

Упомянутые здесь элементы 2 — Добавить ссылки

~~SSE-1~~ Prepare the project proposal and define its scope

~~SSE-11~~ Obtain supervisor feedback and document revisions
